The Care Center

Serving the community with compassion and hope

Our Vision: To be the eminent provider of holistic HIV services including prevention, education, care, treatment and advocacy for the residents of Chicago's greater south side.

HIV Care Center

The HIV Care Center at Jackson Park Hospital (JPH) provides compassion and hope for its patients. The Care Center is a multidisciplinary team of qualified professionals consisting of physicians, nurses, social workers and other clinicians.

Our philosophy is patient centered. We accept each patient's individuality and embrace his/her strengths as well as opportunities. Without judgment, the team addresses the patient's most pressing need and works to resolve the issue. We endeavor to meet the needs of each patient holistically.

Opening the door to empowerment

Frequently, life circumstances contribute to struggles with poverty, addiction, depression, anxiety and self-esteem. The Care Center opens the door to improved health, refined awareness, self-confidence, the ability to make healthy choices and empowerment.

Community Input

An ancient Chinese proverb declares that "Distant water will not quench immediate thirst." The HIV/AIDS Community Advisory Board of Jackson Park Hospital is an immediate resource whetting the South Shore community.

The HIV Community Advisory Board is a diverse group of people committed to educating the community about HIV/AIDS and its impact; increasing the range and scope of HIV Prevention and Care services at Jackson Park Hospital; reducing the stigma associated with HIV/AIDS and giving voice to individuals living with HIV/AIDS.

A Message from the Medical Director

Welcome to the HIV Care program at JPH. I personally look forward to working with you. As partners, we will customize your care and treatment. With proper precautions, behavior modifications, less complicated medicine regimens and advancing medical technology, patients are better able to fight HIV disease and live life to its fullest. If you are not receiving care, please consider the Care Center at JPH.
